

Dear Members and Guests

Thank you for attending today's Management Council 2023/2024 Installation Ceremony.

As you know, Management Council Installation is a significant and meaningful occasion to mark council members' undertaking to serve SAAP with dedication for keeping the Association growing.

The Management Council is now busy in planning upcoming events and working on setting up an Ad Hoc Committee for a Feasibility Study on Office Purchase for SAAP. Some enhancements will be featured on the website of SAAP too.

We are also looking into some activities associated with Corporate Social Responsibility and other educational events for the members and their families. We appreciate your valuable supports to these events. Your ideas and suggestions for these activities will be most welcome.

I would also like to extend my sincere gratitude to my fellow council members, our member volunteers, and our invited speaker who has contributed their expertise and time to make today's event a success and memorable.

Now, please sit back and enjoy the performance conducted by our delegates who had attended our recent ASA Congress in September at Bangkok, Thailand.

Thank you.

Josephine Kwan
President 2023/2024
